Dry Tumbling Media

Treated Cob		
GF-2 ½-14	Low cut with very high color. Good for centrifugal barrels, centrifugal disk, tumbling and vibratory applications, works well on gold, copper, aluminum and SS parts that are already polished.	50# Bags
GF-2 ½-20	Same as 14 but a finer finish.	50# Bags
GF-2 ½-30	Same as 20 but with a very fine finish. Good for jewelry and orthodontic applications.	40# Bags
RF-6-14	High Cut with close to color buff. For use in all types of equipment. Great for stainless steel and silver.	50# Bags
RF-6-14V	Designed for Vibratory Finishing Applications. Has less rouge, binder and less coating than 6-14 with a little more cut. Great for brass in the reloading industry.	50# Bags
RF-6-30	Same as RF-6-14 but with a very fine finish.	40# Bags
RF-7-14	Higher cut and retains high color. Good for spin finish equipment and aluminum cut down.	50# Bags
RF-7-30	Same as the RF-7-14 but with a finer finish.	40# Bags
RF-7 3/8	New concept. Same as the RF-7-14 but with some larger cob added.	50# Bags
SP-4-14	Highest cut with satin color. Good for Spin-Finish Equipment and Centrifugal. Works great on aluminum.	50# Bags
Untreated Cob		
10/14	Medium Course Grit	50# Bags
14/20	Medium Grit	50# Bags
20/40 20/30	Fine Grit	40# Bags
